Interior Goods Direct, Huddersfield

IGD undertakes a vibrant office expansion

Interior Goods Direct Limited (IGD) are one of the UK's largest online retailers of high quality home furnishings. IGD offer a wide range of blinds and curtains all produced exclusively onsite in their 40,000 square ft factory in Yorkshire. They are an online retailer that has grown from a handful of people into one of the UK's leading furnishing suppliers.

IGD were presented with an opportunity to take up further office space close to their existing site. As a result of this they wanted to create a contemporary and inviting office space that would attract and retain employees.

Building Interiors Ltd was engaged by IGD to design and deliver their ideal project and furniture choice which would reflect the brief issued. Building Interiors design team which included RU Creative services, once again rose to the challenge and

completed a stunning office design with great finishes and furniture.

The FS25 range was specified with a banded glazed effect and solid full height oak door sets. One of the key requirements of the project was to separate the contact centre from the meeting spaces and break out areas in a way that maintained a vibrant vibe to the office with sufficient noise reduction. The FS25 offers 35dB(Rw) and was perfect for this requirement. The addition of applied transoms to the glass gives the workspace a contemporary feel, and the oak doors match in with a feature timber wall.
